- 2005 Long-Term Social Evolution in the Yuanqu Basin, North-Central China. Invited Lecture at the Department of Anthropology, University of Kentucky.
- 1999 Yuanqu Basin Archaeological Project, North-central China. Invited Lecture for the Albuquerque Archaeological Society.
- 1997 Yuanqu Basin Archaeological Project, North-central China. Invited Lecture at the Department of Anthropology, Harvard University.

Research, Analysis, and Management of Major Projects

SWCA (2003-present)

- 2018 Western Albuquerque Landholdings Tract P testing and data recovery, Albuquerque, New Mexico. Project results and lithic analysis.
- 2017-18 Southline Transmission Line, southwestern New Mexico, cultural resources survey. Prepared cultural history and research design, and conducted regional-level analysis of assemblage patterning.

Research, Analysis, and Management of Major Projects (continued)

- 2017-18 Rio Grande Del Norte/Sabinoso Land Exchange survey. Statistical analysis of assemblage patterning and regional variation.
- 2017-present NM Highway 6 data recovery, Cibola and Valencia Counties, New Mexico. Prepared and defended data recovery plan, senior oversight for fieldwork and post-field activities, will conduct lithic analysis for the project.
- 2016-present Hobbs-China Draw testing and data recovery, Eddy and Lea Counties, New Mexico. Brief participation in fieldwork, prepared site chapters, oversaw lithic data recording and completed lithic analysis.
- 2015-present Permian Basin Research Design. Regional-level overview, analysis, synthesis, and research design for the Bureau of Land Management's Carlsbad Field Office Region. This major undertaking and regional-level data synthesis provides an update of the Southeastern New Mexico Regional Research Design, completed by UNM's Patrick Hogan in 2006.
- 2015-present Class I overview of cultural resources for the Fort Stanton-Snowy River Cave National Conservation Area. Extracted excavation data from document sources covering many archaeological sites, conducted analysis of the extracted data, and completed a final report that involved GIS deliverables.
- 2015-present Jo-Bar Tank (LA 16902) data recovery, Eddy County. Prepared and defended data recovery plan before the New Mexico Cultural Properties Review Committee, providing senior-level oversight for the fieldwork, oversaw all stages of analysis and report production and conducted lithic analysis. 2014-present Wolf Camp (LA 117293 and LA 171726) data recovery, Eddy County. Prepared and defended data recovery plan before the New Mexico Cultural Properties Review Committee, providing senior-level oversight for the fieldwork, oversaw all stages of analysis and report production and conducted lithic analysis.
- 2014-present LA 43257 data recovery, Eddy County, New Mexico. Directed fieldwork and oversaw post-field lab work, analysis, and report preparation. Conducted lithic analysis, synthesizing project results, and compiling and editing the final report.
- 2012-14 Turner B South data recovery. Directed all phases of this project at a stratified, Late Archaic site in southeastern New Mexico; conducted lithic analysis, synthesized project results, and compiled and edited the final report.
- 2013 Watershed Subdivision Tract M data recovery excavations. Directed all phases of this project, which involved two sites; conducted lithic analysis, synthesizing project results, and completed the final report.
- 2011-2013 Ute Lake Ranch data recovery excavations. Oversaw laboratory and analysis effort for a data recovery project in northeastern New Mexico; personally analyzed site data and lithic artifacts.
- 2011-12 Class I cultural resources overview and synthesis for the Bureau of Land Management's Carlsbad Field Office Region. Oversaw extraction of excavation data from document sources covering hundreds of archaeological sites, conducted analysis of the extracted data, and completed a final report that involved GIS deliverables.
- 2008-2012 Testing and data recovery excavations along the Paseo del Volcan C-3 Corridor, Rio Rancho, Sandoval County, New Mexico. Directed all phases of this large project; conducted lithic analysis, synthesizing project results, and completed the final report.
- 2010-2011 NM 128 data recovery excavations, Lea County, New Mexico. Conducted analysis of lithic artifacts, synthesized project results, and completed the final report.
- 2010 Data comparability for the Bureau of Land Management's Permian Basin Mitigation Program. Organized a workshop attended by the the Permian Basin Mitigation Program work group, and completed a document and database templates specifying data comparability standards for the program.
- 2009-10 Interstate 25 data recovery excavations, Sandoval County, New Mexico. Conducted analysis of lithic artifacts and geomorphology for six prehistoric sites, wrote synthesis of project data, and completed the final report.

Research, Analysis, and Management of Major Projects (continued)

- 2008-2010 Data recovery excavations at the Eul Overlook site, a Late Pueblo I-early Pueblo II pit house hamlet on Carracas Mesa, Rio Arriba County, New Mexico. Directed all phases of this large project; conducted lithic analysis and analysis, compiled and edited report.
- 2009 Synthesis of excavation data for the Permian Basin Mitigation Program, southeastern New Mexico. Oversaw extraction of excavation data from document sources covering 116 archaeological sites in the Bureau of Land Management's Permian Basin study area, conducted analysis of the extracted data, and completed a final report that involved GIS deliverables.
- 2007-08 Flaked stone analysis for the Animas-La Plata data recovery project, La Plata County, Colorado. Analyzed, interpreted, and synthesized flaked stone data collected from four years of archaeological investigations. Most sites dated from the Pueblo I period, with Archaic and Basketmaker II periods also represented.
- 2006-07 US 491-North data recovery excavations, San Juan County, New Mexico. Directed all phases of this large project, including field excavations, completed lithic analysis, and served as principal author and editor of a major technical report. Major findings included a Basketmaker II pit-house settlement stratigraphically sealed within a stabilized sand dune, with a Pueblo II masonry structure on the surface of the dune.
- 2006-07 Buckman Site (LA 137068) data recovery excavations, Santa Fe County, New Mexico. Directed field excavations, completed lithic analysis, and served as principal author and editor of a major technical report. Findings included an Ancestral Puebloan surface component, and buried features dating from the Archaic tradition.
- 2003-2008 US 70-Hondo Valley data recovery investigations, Lincoln County, New Mexico. Completed analyses and a multi-volume report on 25 archaeological sites, and wrote and illustrated a public-outreach booklet on the prehistory of the Hondo Valley. Investigation findings included several Late Archaic and Early Ceramic occupations with substantial evidence of maize agriculture and storage.
- 2004-2005 Mariposa data recovery excavations, Sandoval County, New Mexico. Quality-control oversight for multiple excavation phases for this large development project. Project involves numerous (mostly Late Archaic) sites on the Ceja Mesa near Albuquerque.
- 2004-2005 LA 54147 (Coronado's Campsite) data recovery excavation, Sandoval County, New Mexico. Principal Investigator and Project Manager for excavation of a pit-house feature that was probably one of the many structures in Coronado's campsite near Albuquerque, occupied 1541-42.
- 2004-05 Museum of New Mexico Archaeological Collections Move. Project Manager for a major effort that involved re-boxing, bar-coding, and moving the Museum's massive collections to a new storage facility.
- 2004 US 491 Archaeological testing investigations, McKinley and San Juan Counties, New Mexico. Project Manager and report editor for investigations at 25 sites on the Navajo Nation. Sites included Late Archaic, Anasazi, and Historic Navajo components. Fieldwork involved Navajo crew members.

TRC-Albuquerque (1998-2003)

- 2003 LA 57215 data recovery excavations, Albuquerque, New Mexico. Directed and supervised data recovery field investigations at this Ancestral Pueblo site. Investigations including controlled surface collection, excavation of test units, and machine stripping of the site and excavation of exposed features (which included several pit houses).
- 2002-03 PNM Rio Puerco Mainline Loop 2003 Gas Pipeline Project, Central New Mexico. Directed archaeological survey, testing, data recovery, and monitoring investigations for a 26-mile pipeline project. Notable results included excavations of Late Archaic pit house sites on Albuquerque's West Mesa. Wrote majority of the project report, and oversaw and managed analyses and report production.

Research, Analysis, and Management of Major Projects (continued)

- 2001-02 U.S. 54-South data recovery excavations, Southern New Mexico. Directed investigations and analyses of data recovered from eleven archaeological sites along U.S. 54, between the New Mexico-Texas state line and Alamogordo, NM. Notable results included excavations of numerous house remains and other features at several Formative Period settlements, including a large Pithouse-Pueblo transitional site (LA 6829). Synthesized and interpreted data from house structures and other features.
- 2001-02 "The Box," Southern New Mexico. Directed investigations and analyses of data recovered from 10 rockshelter sites near Socorro, New Mexico, and synthesized the results. Materials recovered included prehistoric perishables from the Box Canyon Shelter (LA 131530).
- 2001 History of Orogrande, Southern New Mexico. Archival and oral historical research into the town of Orogrande and its mining district, a now-abandoned district that flourished at the end of the 19th and early 20th centuries. Part of the U.S. 54-South data recovery investigations.
- 2001 IMC Kalium Potash Mine data recovery excavations. Synthesized and interpreted results of investigations at five sites near Carlsbad, New Mexico.
- 2000-01 Checkerboard Land Exchange, Northwestern New Mexico. Synthesis of investigations at four sites in the Mount Taylor Volcanic Field (3 prehistoric, 1 historic). Included oral history and archival research on a mid-20th century logging camp.
- 2000 NM 90 data recovery excavations, Southwestern New Mexico. Analysis of excavation results from two Pit House-period sites; analysis and background research for chapter on settlement patterns and sociopolitical context.
- 1999-2000 Fort Riley NRHP site evaluations. Research and analysis for investigations at two archaeological sites at Fort Riley, Kansas, for CERL. Included lithic analysis of an assemblage from a prehistoric chert quarry and archival research on a mid-19th-mid-20th century Euroamerican farmstead.
- 1999 Horseshoe Springs data recovery excavations, Sandoval County, New Mexico. Conducted research for, and completed, a major report on excavations at three small masonry structures in the upper Jemez drainage, New Mexico. Included a GIS-based analysis of Ancestral Jemez settlement patterns.
- 1999 Prehistoric resources at Fort Bliss, New Mexico-Texas. Conducted research and prepared an historic context for prehistoric resources at Fort Bliss, used in an NRHP thematic nomination.
- 1998-99 La Plata data recovery excavations, northwestern New Mexico. Review of literature on the prehistory of the Four Corners region, and analysis of excavation results, in preparation of a monograph on excavations at six sites in the La Plata Mine, San Juan County, New Mexico.

Dissertation Research

- 1994-98 Yuanqu Basin Project, North-central China (Ph.D. project). Neolithic to Early Bronze Age Sociopolitical Evolution in the Yuanqu Basin. Methods include a GIS-based analysis of settlement patterns and statistical analyses of ceramics. Washington University in St. Louis, in collaboration with the National Museum of Chinese History.

Previous CRM and Research (1981-93)

- 1992-93 Woodland-Late Prehistoric Settlement Cycles in the Central Ohio Valley. Research in preparation of M.A. paper. Washington University in St. Louis.
- 1985-90 Staff Archaeologist, Kentucky Heritage Council. Analysis and interpretation of excavation results from the Chambers site, a Mississippian Period village in western Kentucky; research and synthesis of state-wide information on the Woodland Period; analysis and interpretation of excavation results from the Conley-Greene Rockshelter, an Early Woodland site in eastern Kentucky.

Research, Analysis, and Management of Major Projects (continued)

1984-85	Fort Ancient Project, chipped stone analysis. Assemblages from seven late prehistoric village sites in northeastern Kentucky. Project conducted by the University of Kentucky, funded by the National Park Service through a grant from the Kentucky Heritage Council.
1983-84	Green Sulphur Springs Site Complex, West Virginia. Analysis and interpretation of chipped stone materials and excavation results. the University of Kentucky.
1983	Pyles Site Project. Analysis and interpretation of chipped stone materials and synthesis of investigations results at a Late Woodland village in northeastern Kentucky. A volunteer project conducted by the William S. Webb Archaeological Society, Lexington, Kentucky.
1982	Geoarchaeological analysis and interpretation of two sites in the J.K. Smith Power Station, Clark County, Kentucky. A contract subsurface reconnaissance by the University of Kentucky.
1981	Geoarchaeological analysis and interpretation of the Hurricane Branch site, Tennessee. University of Kentucky.

Field Experience

SWCA (2004-present)

2018	Project Manager and Principal Investigator. Western Albuquerque Landholdings Tract P Testing and Data Recovery, Albuquerque, New Mexico.
2017	Principal Investigator. NM Highway 6 Data Recovery, Cibola and Valencia Counties, New Mexico.
2016	Principal Investigator and Project Manager. Data Recovery at LA 185618, San Miguel County, New Mexico.
2016	Principal Investigator. Data recovery for the Hobbs-China Draw Project, Eddy County, New Mexico.
2015-2016	Principal Investigator. Data recovery at the Jo-Bar Tank site, Eddy County, New Mexico.
2014	Principal Investigator and Monitor. Monitoring for the Zia II Natural Gas Pipeline, Eddy County, New Mexico.
2014	Principal Investigator. Data recovery at the Wolf Camp site complex, Eddy County, New Mexico.
2014	Principal Investigator and Field Director. Data recovery at Red Tank (LA 43257), a multi-component site in Eddy County, southeastern New Mexico.
2013-14	Project Manager and Principal Investigator. Data recovery at a stratified Archaic site at the Turner B Tank Battery in southeastern New Mexico.
2013	Project Manager and Principal Investigator. Watershed Subdivision Tract M data recovery excavations, Albuquerque, New Mexico.
2012	Project Manager and Principal Investigator. Testing of eight sites for the proposed La Jara Uranium Mine, for Laramide Resources (USA) Ltd.
2010, 2011	Project Manager, Principal Investigator, and Field Director. Two small testing projects for the New Mexico Department of Transportation; one in the La Plata Valley and the other at Jemez Pueblo.
2008-09	Project Manager, Principal Investigator, and Field Director. Paseo del Volcan C-3 Corridor testing and data recovery excavations, Sandoval County, New Mexico.
2008	Project Manager, Principal Investigator, and Field Director. Eul Overlook site data recovery excavations, Rio Arriba County, New Mexico.
2006	Project Manager, Principal Investigator, and Field Director. Buckman Road Site data recovery excavations, Santa Fe County, New Mexico.
2006	Project manager, Principal Investigator, and Field Director. US 491-North Data Recovery Excavations, San Juan County, New Mexico.
2005	Project Manager, Archaeological monitoring and excavation of human remains at San Felipe de Neri Church, Albuquerque.
2004-05	Quality Control Officer, Mariposa archaeological data recovery investigations, Sandoval County, New Mexico.

Field Experience (continued)

- 2004 Project Director, archaeological data recovery investigations at LA 54147 (Coronado's Campsite), Sandoval County, New Mexico.
- 2004 Project Director, archaeological testing investigations at 25 sites along US 491, McKinley and San Juan Counties, New Mexico.

TRC-Albuquerque (1999-2003)

- 2003 Project Director, archaeological data recovery investigations at LA 57215, at Late Developmental Pit-house Village in Albuquerque, New Mexico.
- 2003 Project Director, Archaeological data recovery investigations at six sites along the PNM Rio Puerco Mainline Loop 2003 Gas Pipeline, central New Mexico.
- 2000 Principal Investigator and Project Manager, Archaeological data recovery investigations at four sites in the Checkerboard Land Exchange, northwestern New Mexico.
- 1999-02 Principal Investigator and Project Manager, Archaeological survey and testing projects at Fort Bliss, New Mexico and Fort Riley, Kansas.

Other CRM and Research Field Projects (1977-99)

- 1997-99 Principal Investigator and Field Director, 10 survey projects for the Missouri Department of Conservation. Washington University in St. Louis, Department of Anthropology, and TRC.
- 1996-97 Instructor and Field Director, archaeological field school. Fort Belle Fontaine site, an early 19th century U.S. Army fort in St. Louis County, Missouri. University of Missouri-St. Louis.
- 1993-95 Ph.D. fieldwork and foreign participant, excavations and surveys in the Yuanqu Basin, north- central China. In collaboration with the National Museum of Chinese History, Beijing.
- 1992 Project Director for two Phase II archaeological testing projects in southeastern Missouri. Washington University for the Missouri Department of Conservation.
- 1985-89 Staff Archaeologist, Kentucky Heritage Council. Directed or participated in excavations at several prehistoric habitation sites; conducted field inspections and made eligibility evaluations of over 50 sites in Kentucky for the National Register of Historic Places.
- 1984 Assistant Field Director. Excavations at the Chambers site, a Mississippian period village in western Kentucky. A salvage excavation project conducted jointly by the Kentucky Heritage Council and the University of Kentucky.
- 1983 Site Supervisor. Excavations at the Schoolyard site, an early Late Woodland habitation site in the Green Sulphur Springs Archaeological Site Complex, West Virginia. University of Kentucky.
- 1977-84 Directed or participated in 38 excavation, testing, and survey projects in Kentucky, Indiana, Illinois, Missouri, Montana, Tennessee, and Vermont (30 months cumulative).

Government Agency Experience

- 1985-90 Kentucky Heritage Council. Initiated public events; prepared and submitted for review 75 National Register of Historic Places archaeological site nominations (all were listed without modification); conducted Section 106 environmental review; reviewed and commented upon archaeological research grant applications; designed posters, publication covers, and publication flyers.
