Please answer the following:

1) Describe your previous archaeological experience (including classes, lab work, and field work).
2) Describe any background/experience you may have in hiking, working outdoors, or manual labor.
3) Why are you interested in taking this particular field school? How it will further your educational and career goals?

Please read the following and initial:	
I understand that this is a six (6)-credit summer course, which requires registering for Anth 375 (undergraduate) or Anth 575 (graduate) through the University of New Mexico.	
I understand that in addition to tuition, there is a course fee of \$800. Students are also asked provide some basic field equipment of their own (less than \$100; a list will be provided upon acceptance).	to
I understand that before fieldwork begins, I will be required to show proof of health and accident insurance for the duration of the session and must sign a waiver of liability form provided by Diamond Tail Ranch.	
I understand that I am responsible for my own housing and food during this time, as well as transportation to and from the UNM campus each day (transportation to and from the field a will be provided).	rea
I understand that the field schedule will run from 7am to 4pm, Monday through Friday, and Saturdays will be used for lab work, guest lectures, and fieldtrips.	
I understand that there will be a mandatory, one-day orientation at UNM on Friday, June 1^{st}	
I understand that I will be working outside in sometimes adverse conditions, including high temperatures (average of 90°F in June and July), full sun, and rain. I confirm that I have the physical ability to hike 3-5 miles per day, use a shovel, and lift 20 pounds at a time.
