2020 – Present Curator of Archaeology, Maxwell Museum, University of New Mexico

2020 – Present Assistant Professor of Anthropology, Department of Anthropology, University of New Mexico (UNM)

2014 – 2020 Laboratory Manager, Crow Canyon Archaeological Center, Cortez, CO

2011 – 2014 Laboratory Analysis Manager, Crow Canyon Archaeological Center, Cortez, CO.

2005 – 2010 Pictorial Collections Fellow, Center for Southwest Research, UNM.

2000 – 2005 Pictorial Collections Assistant, Center for Southwest Research, UNM.

Employment History Part II

2010 – 2020 Adjunct Assistant Professor of Anthropology, Department of Anthropology, UNM

2004 Archival Intern, Wheelwright Museum of the American Indian, Santa Fe, New Mexico.

2003 – 2004 Curatorial Assistant in the Photo Archives, Maxwell Museum of Anthropology, UNM.

2006, 2008 Instructor, Anthropology Department, UNM.

2006 Lab Director & Field School Teaching Assistant, Chaco Stratigraphy Project (UNM), Chaco Culture National Historical Park, NM.

2002 – 2003 Graduate/Teaching Assistant, Anthropology Department, UNM.

Professional Recognition and Honors

2018 The best 2018 Anthropology/Archaeology book by the New Mexico-Arizona Book Award for *The Archaeology and History of Pueblo San Marcos, New Mexico*. Edited by Ann Ramenofsky and Kari Schleher, published by UNM Press in 2017.

2008 Brolio-Basehart award for the best Anthropology Department poster 2007-2008 (poster presented at the 2007 Society for American Archaeology Meetings)

Short Narrative Description of Research, Teaching and Service Interests

My research is built on a foundation of community collaboration and knowledge of archaeology of the precolonial and postcolonial American Southwest. I use craft production, specifically pottery and jewelry production, to elucidate aspects of past social patterns in the archaeological record. I also work with descendant community members and artists to incorporate Indigenous voices into studies of ancestral crafts. The complex and additive nature of pottery production makes it an ideal medium to view complexities of social networks archaeologically. The way people learn to make things, including pottery, reflects learning networks that indicate local and broader communities of practice. By using material culture, social networks at different scales can be identified by following the life histories of the material involved. At the scale of production, we can view the learning networks, or communities of practice, encoded in production steps at each stage of the production process. Choices made by potters reflect aspects of learned traditions. In these choices we see the way that individual producers are embedded in the wider learning network of the community. At a broader scale, we can view distribution and exchange networks, which are reflected in distribution across the landscape. Here we see networks beyond the level of producer and can view connections between places. These questions are especially significant for the precolonial and early colonial period in the southwest US and are a focus of my research: the impact of Spanish missionaries and colonists into the region can be best understood by combining archaeological lines of evidence, especially in household production of items such as pottery and jewelry, and oral history evidence. My research on archaeological pottery and jewelry relies on both low-tech and high-tech methods, including petrographic, electron microprobe, neutron activation analyses, and isotope analyses. My current research involves two main regions in the southwest, the Mesa Verde region of Colorado and the Northern Rio Grande.

My museum work focuses on integrating my archaeological research with tribal communities and increasing access to both collections and exhibit content creation for these communities. To this end, I've hosted over 30 tribal community visits and collections reviews to the Maxwell Museum archaeological collection since 2020 and I develop collaborative exhibits and research projects with community members.

My teaching interests focus on making archaeological knowledge accessible for students of all backgrounds and ages. I brought to UNM almost a decade of experiential teaching of students aged 10 to 90 at Crow Canyon Archaeological Center and I emphasize hands-on experience in my university classes. This emphasis and the use of applied sciences create a classroom environment that engages students with scientific methods. I develop class projects that involve active learning, including guided experimentation with traditional technologies used in the southwestern past.

My professional service includes serving on a number of committees for the Society for American Archaeology, including the Fred Plog and Cheryl Wase scholarship committees, and serving as a peer reviewer for archaeological journals, such as *American Antiquity*, the *Journal of Anthropological Archaeology*, and *Kiva*. My philosophy of service to the community is closely tied to my focus on public dissemination of archaeological knowledge about the US southwest. I served as the vice-president of the Cortez chapter of the Colorado Archaeological Society, an avocational group that promotes public archaeology, and organized their monthly lecture series for seven years. I also serve on the editorial board for the long-running *Pottery Southwest* journal, a non-refereed journal that publishes 1-2 issues a year on archaeological pottery research, published by the Albuquerque Archaeological Society. I also work on public outreach for archaeological knowledge by giving public, invited talks on my archaeological research.

Scholarly Achievements

Research activities

2025 – Present Gendered Perspectives in the Southwest

Ongoing research collaboration with tribal community members and other academics to incorporate women's perspectives on collections care and identification of culturally important objects in museum collections. Workshops: February 20th – 21st, 2025, Maxwell Museum of Anthropology & May 31st-June 2nd, 2026, Maxwell Museum of Anthropology (Wenner-Gren Foundation Workshop Grant funded)

2016 – Present Tonque Agrarian Project (with Hannah Mattson)

2016 – Present Northern Chaco Outliers Project, Cortez, CO (with Crow Canyon Archaeological Center)

2011 – Present Basketmaker Communities Project, Cortez, CO (with Crow Canyon Archaeological Center)

2011 – 2018 Goodman Point Communities Project, Cortez, CO (with Crow Canyon Archaeological Center)

2011 – 2017 Goodman Point Pueblo Project, Cortez, CO (with Crow Canyon Archaeological Center)

2009 – 2011 Ceramic Analyst, Agua Fria Pueblo Project, Southwest Archaeological Consultants, Santa Fe, NM (with Suzanne Eckert)

2008 Petrographic Ceramic Analyst, Montañño Bridge Pueblo Project, Criterion Environmental Consulting, Albuquerque.

2005 Petrographic Ceramic Analyst, Camel Tracks Training Ground project, Office of Contract Archaeology, UNM.

June – Aug. 2004 Excavation Crew Member, Casa Corral Excavations, Maxwell Museum of Anthropology, UNM.

July – August 2002 Excavation Crew Member and Ceramic Analyst, Galindo Project, Peru.

June – July 2002 Excavation Crew Member, San Marcos Project, NM.

2000 – 2001 Ceramic Analyst, San Marcos Project (UNM).

May – August 1999 Field Research Intern, Shields Pueblo Project, Crow Canyon Archaeological Center, Cortez, CO.
